

UNIT 10

(SEE PAGE 64 FOR UNIT 10 MAP)

This unit consists of the Aleutian Islands, Unimak Island and the Pribilof islands.

Special Provisions:

- On Otter Island in the Pribilof Islands, the taking of any wildlife species for subsistence uses is prohibited.
- A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take caribou on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than four harvest limits in his/her possession at any one time.
- The communities of False Pass, King Cove, Cold Bay, Sand Point, and Nelson Lagoon annually may each take, from October 1 through December 31 or May 10 through May 25, one brown bear for ceremonial purposes, under the terms of a Federal registration permit. A permit will be issued to an individual only at the request of a local organization. The brown bear may be taken from either Unit 9(D) or Unit 10 (Unimak Island) only.

An "All rural residents" designation in the following customary and traditional use determinations means that a specific determination has not yet been made.

Hunting

SPECIES/CUSTOMARY & TRADITIONAL USE DETERMINATION

HARVEST LIMITS

OPEN SEASONS
